## ABOUT ME

Upcoming Software Engineering graduate in 2025 with advanced proficiency in C++. Proven leader as the Class Representative for two years, showcasing strong communication and teamwork skills. Eager to apply technical expertise and leadership experience to contribute effectively to software development projects. Committed to continuous learning and growth in the dynamic field of software engineering.

## EDUCATION

### Bachelor of science in Software engineering

Lahore garrison univeristy  
2022-continue

### Fsc-Pre medical

Govt. Clg Zafarwal  
2019 - 2021

## SKILLS

- Basic proficiency in c++ and SQL
- Effective communication
- Problem solving
- Microsoft office

## PROJECTS

### • Medical assistant 2023

Developed a C++ project implementing a secure signup/login system with file handling, utilizing linear search and arrays. Designed a menu-driven interface, integrating functions for disease and doctor details retrieval, optimizing data storage and access through systematic file handling procedures.

### • Student managment System 2023

Engineered a C++ project with a robust sign-up and login system leveraging file handling. Implemented a dynamic menu using switch statements, featuring functions for adding, searching, deleting, and updating records. Ensured data security and streamlined user interaction for enhanced functionality.

### • Online voting system 2022

Developed a C++ project implementing a secure signup/login system with file handling, utilizing linear search and arrays. Designed a menu-driven interface, integrating functions for disease and doctor details retrieval, optimizing data storage and access through systematic file handling procedures.

## AWARDS

- High achievement award From lahore garrison univeristy 2023
- Merit Base scholarship from lahore Garrison university
